

Slit Screen 3001.30

The slit consists of one pair of blades.
Their motion is asymmetrical to the centre of the aperture.

Material:

Housing: Aluminium*
Blades: 3mm Tungsten*

* other materials available on request

Specifications:

Aperture [mm]:	0-25
Adjustment:	asymmetric
Adjustment precision [mm]:	0.02
Parallelity [mm]:	0.02
Weight [kg]:	0.15

Blade geometries:

The following blade geometries are available:

- A)  (Standard)
- B) 
- C)
