

## Slit Screen 3001.30

The slit consists of one pair of blades.

Their motion is asymmetrical to the centre of the aperture.

## Material:

Housing: Aluminium\*

Blades: 3mm Tungsten\*

 $\ ^{*}$  other materials available on request

## Specifications:

Aperture [mm]: 0-25

Adjustment: asymmetric

Adjustment precision [mm]: 0.02
Parallelity [mm]: 0.02
Weight [kg]: 0.15

## Blade geometries:

The following blade geometries are available:

A) (Standard)

В)

C)
