

Slit Screen 3001.10

The slit consists of one pair of blades.
Their motion is symmetrical to the centre of the aperture.

Material:

Housing:	Aluminium*
Blades:	2mm Tungsten*

* other materials available on request

Specifications:

Aperture [mm]:	0-10
Adjustment:	symmetric
Adjustment precision [mm]:	0.02
Parallelity [mm]:	0.02
Weight [kg]:	0.1

Blade geometries:

The following blade geometries are available:

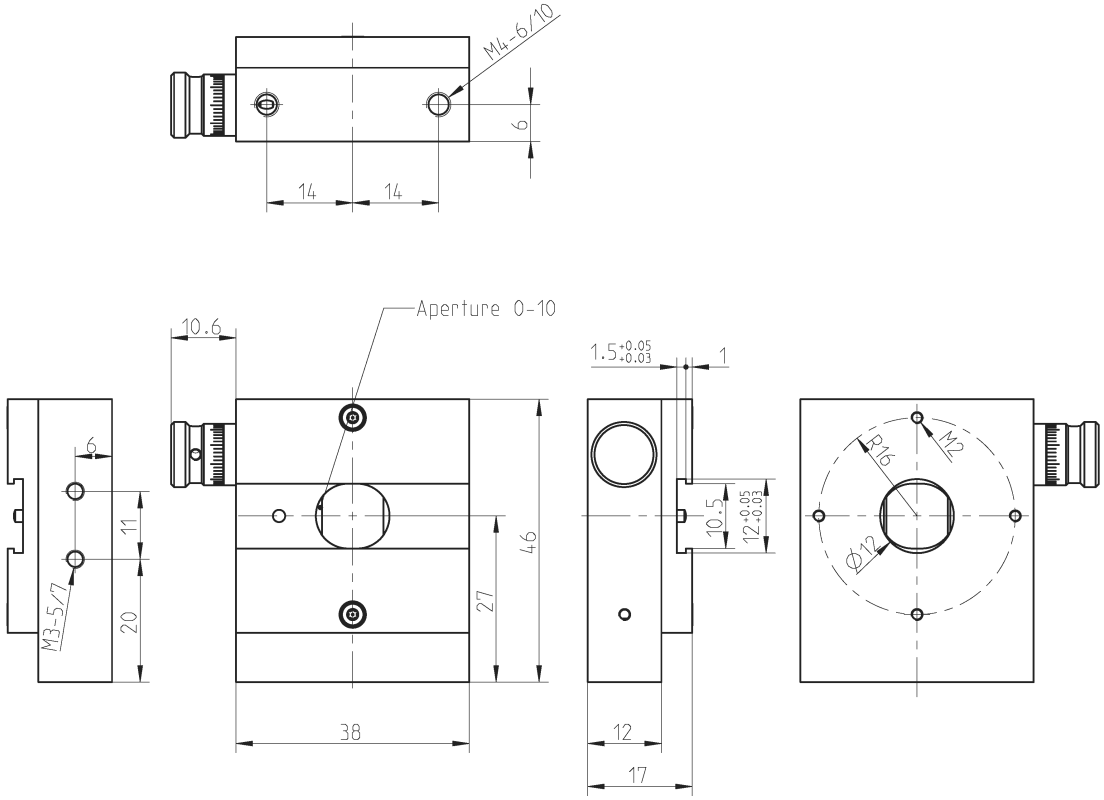

A)  (Standard)

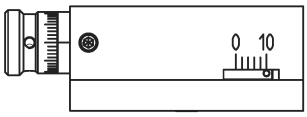

B) 

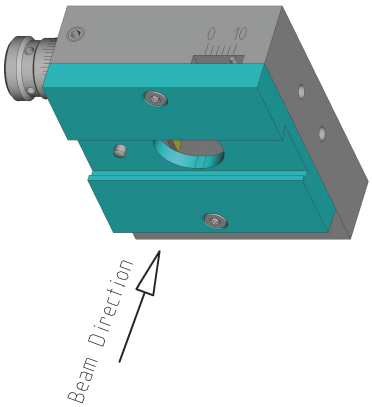

C) 

Accessories:

Slit apertures ranging from 0.01 to 8mm in size
