

## Slit Screen 3001.30

The slit consists of one pair of blades.  
Their motion is asymmetrical to the centre of the aperture.

### Material:

Housing: Aluminium\*  
Blades: 3mm Tungsten\*

\* other materials available on request

### Specifications:

Aperture [mm]:	0-25
Adjustment:	asymmetric
Adjustment precision [mm]:	0.02
Parallelity [mm]:	0.02
Weight [kg]:	0.15

### Blade geometries:

The following blade geometries are available:

- |    |   |            |
|----|---|------------|
| A) |  | (Standard) |
| B) |  |            |
| C) |  |            |
